Mosley Electronics, Inc., 10812 Ambassador Blvd., St. Louis, MO 63132

**** The RV-7 is the Mosley vertical that manufacturers around the world have modeled their verticals after, most recently the R-7000. Look Familiar to our RV-7? Why Pay More? Get the Original and at a lower price. Mosley..."A Better Antenna"!**

Mosley RV-6 WARC (Since 1984)

10, 12, 15, 17, 20 & 40 Meter
Compact • Under 19 ft. Tall
Heavy-duty Construction
Stainless Steel Hardware
No Measuring - Pre-Drilled - Color Coded
Single Feed Line
2 Year Warranty

The new Mosley verticals RV WARC series have been designed to combine ease of installation and excellent performance. These verticals require only modest ground systems Complex ground rod and radial systems may be used if the operator desires, but extensive installation experience has proven that outstanding performance is achieved with only a simple mounting post which doubles as the ground rod. As a result, these antennas are ideally suited for upper story installation, city lot dwellers or easy installation in even the most sophisticated QTH.

Mosley RV-7 WARC (Since 1984)

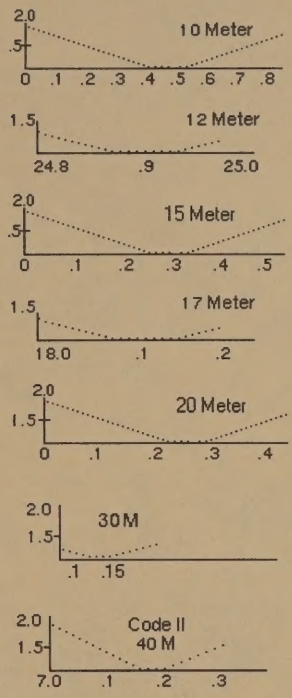
10, 12, 15, 17, 20 ,30 & 40 Meter
All Other features of the RV-6, plus 30 Meters.

Mosley RV-8C WARC (Since 1969)

75/80 Meter Add-On to the RV series Verticals

The RV-8-C WARC Modification kit for WARC verticals will expand your WARC vertical coverage to include 75/ 80 meters.

RV-6-C With the RV-8-WARC Attached



Specifications & Performance Data

Model:	RV-6-C	RV-7-C
Bands (meters):	10, 12, 15, 17, 20 & 40	10, 12, 15, 17, 20, 30 & 40
Power Rating:		
C W	1 KW	1 KW
P.E.P. SSB.	2 KW	2 KW
Feed Point Impedance:	52 ohms	52 ohms
SWR at resonance(1.5/1 or better):	1.5/1	1.5/1
Recommended Transmission Line:	RG-8/U	RG-8U
Number of Radials:	6	7
Maximum Radial Length (approx.):	34 in. 7 in.	34 ft. 7 in.
Height (approx.):	20 ft.	21 ft.
Recommended Mast Size (O.D.):	2 in.	2 in.
Ground Required:	Yes	Yes
Wind Surface Area (in sq. ft.):	2.05 ft.²	2.05 ft.²
Wind Load (EIA standard 80 MPH):	44 lbs.	44 lbs.
Assembled Weight (approx.):	11 lbs.	12 lbs.
Shipping Weight:	25 lbs.	25 lbs.
Warranty:	2 Years	2 Years

Think About It?

Isn't a Halfwave on 20 meters at least 33 feet?

How do some of these companies do the things they do?

If the vertical is 1/4 wave and the ground or counterpoise is 1/4 wave, then I guess we also have 1/2 wave verticals!
